PREFATORY NOTE

THIS seventy-third yearly issue of the English Catalogue of Books comprises the titles (under authors, and subjects or titles) of works published during 1909 and also of some received too late for inclusion in the seventy-second issue.

The main entry of each book begins with the author's surname (if known) in heavy type. As an index to these "Author" records, entries are also made under the titles, commencing with its most important word (which usually indicates the *subject* dealt with by each book), or with the first word; the name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the last part of the name, *e.g.* :—

Could (Sabine Baring-)

and accordingly must be looked for in that order.

The publications of Learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal Publishers in the United States and Canada. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1909, showing in detail the number of works in each class of literature and giving the proportions of new books and new editions.

Hearty thanks are due to many publishers, secretaries, librarians, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars (author, title, price, publisher, and month of publication) of any work which may have been omitted. Information as to each book should be given on a *separate* slip of paper or post-card. It should be addressed to—

ANALYSIS OF BOOKS PUBLISHED IN 1909

HEREWITH we give our usual Analytical Table showing the number of Books recorded as published during the past year, divided up into the various classes of literature and separating new books from new editions. It is worthy of note that, in spite of a small decrease of 93 in 1908 as compared with 1907, there has been an increase of 2,473 in the annual output of books since the commencement of the year 1906. The figures for the ten years previous to 1909 are interesting as showing the development of publishing during the period. The manner in which publishing is wrapped up with the prosperity of the country is strikingly shown by the slump during the period of the South African War, and the subsequent revival :—

Year.	New Books.	New Editions.	Total.
1899	5,971	1,596	7,567
1900	5,760	1,389	7,149
1901	4,955	1,089	6,044
1902	5,839	1,542	7,381
1903	6,699	1,682	8,381
1904	6,456	1,878	8,334
1905	6,817	1,435	8,252
1906	6,985	1,618	8,603
1907	7,701	2,213	9,914
1908	7,512	2,309	9,821
1909	8,446	2,279	10,725

This year, for the first time, the number of books recorded is over 10,000,

the actual figures being 10,725. This is an increase of 904 upon last year's figures. In connection with this increase it may be noted that the number of new editions has decreased. In 1908 the percentage of new editions was 23·5; this year it is down to 21·2—on the whole a gratifying change.

Taking this year's output, and comparing it class by class with last year's, there are the following *increases* :—Religion and Philosophy, 100; Fiction and Juvenile Works, 94; Political and Social, 81; Arts and Sciences, 37; Voyages and Travels, 20; History and Biography, 53; Year Books and Serials, 76; Medical Science, 37; Belles Lettres, 47; and Miscellaneous, 478; while there are *decreases* in the following classes: Educational 8; Law, 17; and, Poetry and Drama, 94.

The spring publishing season was unusually prolific and prolonged, but the autumn season was marked by still greater activity without any corresponding prolongation, and the result was an exceptionally congested period for both those who sell and those who buy books.

The Analytical Table supplies further detailed information.

DIRECTORY OF PUBLISHERS.

Publishers have been invited to send us their Telegraphic Addresses and Telephone Numbers.

*Those sent will be found below between square brackets [], and separated from each other by a semicolon (;)
The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes*

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the 1909 English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptance of the term, be called Publishers, since the publication of books forms only an occasional portion of their business.
